(54) Title: CONNECTION MODULE FOR TELECOMMUNICATIONS AND DATA SYSTEMS

(54) Bezeichnung: ANSCHLUSSMODUL FÜR DIE TELEKOMMUNIKATIONS- UND DATENTECHNIK

(57) Abstract: The invention relates to a connection module (1) for telecommunications and data systems, comprising a base plate (2), on which connection modules (3, 4) for optical fibers (5) or electric conductors can be arranged. According to the invention, the connection modules (3, 4) and the base plate (2) have corresponding fixing elements and the base plate (2) is provided with at least one connection module (4) for optical fibers (5) and at least one connection module (3) for electric conductors. The invention also relates to a suitable connection module (3) for the optical fibers (5) and to a method for connecting said optical fibers (5).

(57) **Zusammenfassung:** Die Erfindung betrifft ein Anschlussmodul (1) für die Telekommunikations- und Datentechnik, umfassend eine Grundplatte (2), auf die Verbindungsmodule (3, 4) für optische Lichtwellenleiter (5) oder elektrische Adern anordenbar sind, wobei die Verbindungsmodule (3,4) und die Grundplatte (2) zueinander korrespondierende Befestigungsmittel aufweisen, wobei auf einer Grundplatte (2) mindestens ein Verbindungsmodul (4) für optische Lichtwellenleiter (5) und mindestens ein Verbindungsmodul (3) für elektrische Adern angeordnet ist, ein geeignetes Verbindungsmodul (3) für die optischen Lichtwellenleiter (5) sowie ein Verfahren zum Verbinden der optischen Lichtwellenleiter (5).
